TOWN HOUSE, EVERY MONDAY,

The debate on civil setvice, which will occupy the time of the House for a few days after Congress reassembles will be risys after Congress reasonness will be vigorus and spiry. Many members have been employing their time during the recess in digging up data and otherwise preparing themselves for an assault upon the law which will shake its boundations. Commissioner of Pensions Evans has contributed but a little to the aid and condort of the congenity of viril service and supthe opponents of vivil service and sup-died them with considerable amunition. piled them with consideration annuments.

His statements, aiready which published,
to the effect that the best cherks in his de-partment were put there as spullaning,
that he could dispense with 100 vivil sp-pointees without legling their loss, and that he could obtain better results from ce absolutely responsible only to the sq inding powers are probably true.

"Champ" Ciark, the popular and wilty Democratic member from Missouri, talks solutedly on the subject and tells some ruths about the situation in Congress. e says: "The civil service teform husi-ess as now conducted is a Irand of the est water. It is one of the hexpibable ystaries of this world bow it ever cam he adopted or how it is maintained here are not two dozen men in the House really in layor of it; there meret were two dozen two in any other Congress. In layor of it, and yet it appears impossible to re-peal it. At heert, the Republicans are no ore civil service reformers than are th more ever service reformers what are not temocrats. Harrison," continued Mr. Clark, "didn't pay any attention in the civil service except to use if for Republi-cent ends; Claveland didn't pay any at-tention to it except to use it for personal nds, and McKinley will follow suit, not tekward step must be taken in the civil rvice. He can't stand the presente, here is but one McKinlay, Gen. Grosvenor ungry a spoilsman as one would find in a nould's journey. I wish I could get Gen-frosvenor to agree to go further than he wants to go. I think I could make a great nate of him if he would take my solvies. and that is, instead of amending the civil

service law so as to supeze out a lew Democrats to repeal the whole business. That would give him standing in the country and fame with the people. It ruight reake him President. There is no telling. I would offer this amendment myell, but I ica afraid I could not get recog tion from the chalt, while Hen. Grosven

When the Senate reconvenes Senator solge will introduce a bill providing for the purchase of the bands bands, St. Thomas, St. Croix and St. John. The State Repartment has communicated with that government and learns that not only It willing to sell, but that two Emopea vernments are now diekering for their orchase. These governments are suppurchase. These governments are sup-quised to in Germany and Great Bittain. The United States, in 1868, negatiated a treaty with Demnark for the pritchase of these biamisters \$5,00,000 but it was de-teated by Charles Summer. Every Europemeaning Control by Charles Shiuner. Last shallow with a naval variable menting as a post in the West Indies, save Germany, and that nation is making great efforts to now a these blands, for the harbor of St. Thomas is the best in the West Indies and capable of holding the navies of the world. senator Lodge believes the United States ought to awn them, and he is confident that the appropriation for their purchase will be runds by Congress.

It has been an almost invariable rule I be bistory of the Government that when a Cabluet official is fortunate or unfortuna cannot district a pronounced stant on any public issue directly connected with his deportment be brings upon his devoted head a large share of abuse and a very wicked heart what they ought to ascille to a sold only by agents, and is small readicism of praise. The rule has a slow liver. The body and the sout at the south as common over the piloty of cellicities of his own party organs have desimed it what the piloty of cellicities. Shortly after Mr. Gage's financial data was promulgated, aone newspapers made the remarkable autonous entent that the Prendent had rappered that the Prendent had rappered the Secretary is a purely private conversation with a friend stated that the believed that a Cabinet differ about of work is sold only by agents, and is middled by the dall and well-known fitting of A. From Our Special Correspondent. Washlagton, Jac., 1888, It is difficult to predict accurately whea the debate on the Hawalian annixation treaty will end, nor will the discussion be reported in full as it takes place in executive arsatoa, behind elosed thors. What the float trail will be is also uncortain at this writing. The latest and most reliable poil shows that fifty-sia sensitors farer the treaty, while thirty-three oppose it, which would indicate probable failure of the treaty. But the administration expects to secure the four abilitional voices required to make the necessary two thirds from the ranks of the seven or light sensities who are mow middly opposed, yet open to conviction. Senator Helittehl of Idaho has been one of these, but recently came out viction. Senator Heliffell of Idaho has been one of these, but recently came out in favor of enteration. Party lines are not drawn upon it, though every Republican senator will vota for the trialy. Twenty-nine of the upponents are democrats, three populists and one a silver republican. The debate will undoubtedly be interested and the numerical send the numerical send the numerical send the superical send the numerical send the superical send the numerical send the superical send that superical send the superical send that superical send the superical send t internaling and the proposition to throw open the doors and let the discussion go on in open assion may finally prevail. Senator Hanna has been reelected to the higher branch of 4he U. S. Congress. There is no doubt but this result of the striggle in Ohio will be gratifying to the Republican party in the country. It is to be froped that the charges make of history of Ohio legislators is not true, even though thurnarrow margin of one majority lends color to the statements. If the nation is to be preserved it must be by the honesty of this people and only ruin can result from a wholesala currention of our vaters and legislators by the moneyed magnates. There is multing so dangerous to the country's welfars as the corruptive power of money and it is only too true that great weith is often used to decreive and defeat the will of the people. —At the last business queeting of the Epworth League of the M. E. church of East
Braintree, held Friday evening, Jan. 7,
1889. It was roted that the League be
known as the "Miller Chapter" of the Epworth League. It may be interesting to
some to know the reason of this choice,
it was through the citoris of Mr. William
Miller who passed away some years ago
but is suit well remembered by the people
of East Braintree, that the first prayer
meeting was held from which hos grown
the church, of which this League is now a
part. The alarm from Box 13 Monday after-noon was for a grass fire near the stable of f. B. Barker on Pearl street. The depart-ment was not needed.

Dr. Chas. R. Greeley CLARENCE P. WHITTLE, D. D. S. The Weakness of a Woman.

A woman who has suffered eighteen years, who has been cured after a life of misery and lives again in the sunshine of happiness, speaks to other women in words

Just a woman's story.

Not strange because it happens every day, sol romantle or thrilling, but just a story of nivery and suffering such as only women now.

know.

For eighteen years, Sara E. Bowen, of
Peru, Indiana, carried a burden ol pain.

Nighl and day, without respite, she sulfered the most dreadful experience that ever
fell to the lot of woman.

That she did not die is almost beyond

That she did not die is almost beyond beliel.

That she is well to-day is a miracle.

Mrs. Bowen's trouble requires no description beyond the symptom, which every woman will instantly recognize.

In describing them Mrs. Bowen says:

"For eighteen years I sultered with weakness peculiar to my sex.

"I was a broken down piece of humanity: a shadow of a woman.

"Afly brain was tortured until I could remember but little. I could not step or eat and was reduced in weight to a mere skelton. What little I did eat could not be digested in my weakned state, and caused me untold misery.

"My skin was muddy, my eyes were heavy. I was dizzy all the lime and totally unit for even ordinary housework.

"Doctors prescribed for me without avail. Medicine was recommended and taken in quantity but It did no good.

"Time and time again I was at the brink

cl despair. Day by day my trouble grew worse, and dark indeed was the day before my deliverance. "A lriend of mine told me about Dr. Wil-liams' Pink Pills for Pale People and what they had accomplished for others in my condition.

"It was the first glimpse of the sun of hap-piness through the dark clouds of misery. "I bought a box and took them. Even then I leli their effect. I bought more and continued to take them until I was well

then I leli their eflect. I bought more and continued to take them until I was well and strong.

"They liberated me from the most terrible bonds that ever tortured a woman. They brought me new life when death was welcome.

"I recommend them to my lriends, and I do not hesitale to say to every sullering woman in the world that Dr. Williams' Pink Pills will cure her."

Dr. Williams' Pink Pills for Pale People are a specific for all forms of weakness. The blood is vitalized and becomes pregnant with the elements of life. The nervous system is reorganized, all irregularites are corrected, strength returns and disease disappears. So remarkable have been the cures performed by these little pills that their lame has spread to the far ends of civilization. Wherever you go you will lend the most important article in every drug store to be Dr. Williams' Pink Pills for Pale People.

WHY WOMEN LOOK OLD.

Young at Fifey.

A logpipe party was held at Uncoin hall, Friday evening under the anydees of a quartette of young ladies and was at-tended by about 35 couples. The hall was very prettily descrated for the occasion, Twenly-five.

> "How old I look!" is what women say The passing years are not a leat make the average woman grow out in looks, but the condition of nervo weaknes, poor ideed and low vitality. Some women of

idoed and low tilality. Some women of this preservo the youthing appearance of twenty-five. The average woman of to-day, however, appears and at thirty, with dutt, hellow-taged eyes, thin, pinched poin checks, sallow complexion, dark or bloodless hips, the face lined, and the expression the appear of vivacious.

With good digestion, strong nerves and good blood any woman can keep herself young, tresh and youthful appearing, and she can attain this much desired condition by using that greatest nervo and blood lavigorator known to modero science, Dr. Greene's Nervaca. It is positively astonishing what disk remarkable remeily will do for women. It is almost a Fountain to Youth, for it tenews and complete health. A Minister's Trials.

This narrative from a minister is of greatest value to those whose nerves are unstrung, health shattered or otherwise ailing. It is particularly appropriate in this age of active, nervous, endless labor.

We are living too tast. "Fast as light-ning," expresses II, for we talk by elec-tricity, cook by electricity, travel by electricity and so on. Its a hurry, hurry, hurry from the cradle to the brain.

electricity and so on.

Its a hierry, hurry, hurry from the cradle
to the grave.

We crowd loo much 1 crowd our work,
crowd our saling, crowd our pleasure,
crowd our seleging.

A "breaking down of the nervous aystem" is the way of expressing the result.

It means a depleting of the nervos induced by prolonged sirain 1 overlaxing of
the nervous aystem 1 product of overliurry and bustle.

It affects all people in all walks of life.

It bailies physicians of all schools.

No one knows the horrors of such a
condition better than Rev. J. N. McCrady, of Elkton, Mich. For years he
labored faithfully and well. He was progressive and aggressive 1 a feader among
men, a deep thinker and a hard worker.

In his zeal, he overworked 1 overlaxed
his menial and physical strength.

The outlook was dark, with health shaltered and recovery apparently hopeless.

Many means for a cure were tried, without receiving benefit.

Finally he took Dr. Williams' Pink Pills
lor Pale People and was restored to health.

It sayar

prostration 1 twice with guartitis.

"These attacks would throw me into spasms.

"I could eat neither meal or vegetables.
"If my bare feet touched the floor I was immediately seized with cramps.
"I was used up 1 helptess, hopeless.
"I commenced to take Dr. Williams' Plak Pills for Pale People. One box was consumed and I felt no better. This discouraged me.
"My wile urged me to try the pills some more, feeling that my life depended upon the result.
"I continued to take them.
"Since then, and it has been several months, I have enjoyed life.
"Have preached all summer and held revival neetings for lifteen weeks.
"I have lead no muscular exercite for years, but recently, lave done considerable hard work in my garden, my nurcles standing this test renarkably well.
"Every Sabbath I preach three times and now think I am good for another twenty years, if the Lord wills."

To add weight to his word, Rev. Mc-Gready made affidavit before J. D. Brookes, Notary Public.
Dr. Williams' Pink Pills for Pale People exert a powerful influence in restering wasted nerve power and in prailying and enriching the blood. Druggists consider them the most effective remedy which they dispense.

"Several physicians treated me, but no permanent benefit was derived. "Four times I was stricken with nervous prostration; twice with guaritis. "These attacks would throw me into

WINTER BIRD LIFE.

Three Penthered Felenda That Sitek Together. On a winter moraling when one has livers valuely listening for some sign of life, what a welcome sound is the tap plng of a woodpecker! Itoubtless it b a downy exenvallng his breakfast of he may be repairing his wister quarters, for he fashious a home in which to pass the colder months as well as one which to nest. The male has a red band across the nape; in the female this mark is white.

The halry woodpecker is as a rule less common than the downy in the castern states. He may be known chilefly by his larger size, the downy we surring 6% inches in leagth while the lairy is about 2% inches longer. With the downy we may often find associated, in the winter, another elimb-

assoriated, in the winter, another climb-ing bird, the white-breasted initiateh. Seen erceping over tree trunks, he has at that glance the appearance of a woodpecker, but closer observation will show that he differs in many points, the most striking of which is that he the most striking of which is that he climbs downward as well as apovered and that he down not use his tail as a uniport. The tail-feathers, therefore, instead of being stiffened and pointed at the cud are soft and rounded. The white-brenat's mode of progression, bluck cap, blue-gray back, while checks, and churacteriatic note of yark yank combine to render his iteratification. combine to render his identific

"I move that the resolution's lor nomended to the effect that the defeat of Gen. Hancock and Mr. Englishers due to the selfishness and udamasagement of democratic leaders in New York and Brooklyn."

This was a brief offerance, orly three words longer, indeed, than Vas. Work's specific of 21 words necepting his cominction as mayor lost fall, but it made the tiger roar as with the wee of many waters and the result was Van Wyrk's retirement from Tancaday Hall. One of the greateily papers the both easy and certain.

If one finds the downy and white-breast in partnership it is quite probable that a third member of the firm Is the chickadee. During the winter these three birds seem to have some-ibling in common which draws them logether. Perbaps it may be a feeling of loneliness which prompts them to seeks ach other is companiouship. CLARENCE P. WHITTLE, D. D. S. A Minister's Trials.

> This narrative from a minister is of greatest value to those whose nerves are unstrung, health shattered or otherwise ailing. It is particularly appropriate in this age of active, nervous, endless labor.

We are living too fast. "Fast as light-ning," expresses it, for we talk by elec-tricity, cook by electricity, travel by electricity and so on. Its a harry, hurry, hurry from the cradle

lts a hurry, hurry from the cradle to the grave.

We crowd loo much; erowd our work, crowd our caling, crowd our "pleasure, erowd our sleeping.

A" breaking down of the nervous system" is the way of expressing the result. It means a depteling of the nerves induced by prolonged stealn; overtaxing of the nervous system; a product of overhurry and busile.

It affects all people in all walks of life. It biffles physicians of all schools.

No one knows the horrors of such a condition better than Rev. J. N. McCready, of Elkton, Mich. For years he labored faithfully and well. He was progressive and aggressive; a leader among men, a deep thinker and a hard worker.

In his teal, he overworked; overtaxed his mental and physical strength.

The outlook was dark, with health shattered and recovery apparently hopeless.

The outlook was dark, with health shafered and recovery apparently hopeless.

Many means for a cure were tried, without receiving benefit.

Finally he took Dr. Williams' Pink Pills for Pale People and was restored to health. He says:
"In April, 1896, the physicians said I must stop preaching or die.
"I had overtaxed myself and was suffering from a complete breaking down of my nervous system and a persistent stomach trouble. "Several physicians treated me, but no permanent benefit was derived. "Four times I was stricken with nervous prostration; twice with gastritis. "These aftacks would throw me into

"These attacks would throw me Into spanns.
"I could cat neither meat or vegetables.
"I tould cat neither meat or vegetables.
"If my bare feet touched the filoor I was immediately selzed with cramps.
"I was used up: helpless, hopeless.
"I commenced to take Dr. Williams' Pink Pills for Pale People. One box was consumed and I felt no better. This discouraged me.
"My wife urged me to try the pills some more, feeling that my life depended upon the result.

My with neged me to fry the pills some more, feeling that my life depended upon the result.

"I confined to take them.
"Since then, and it has been several moaths, I have enjoyed life.

"Have preached all summer and held revival needings for lifteen weeks.
"I liave had no muscular exercise for years, but recently, have done considerable hard work in my garden, my nurecks standing this test remarkably well.
"Every Sabbath I preach three times and now think I am good for another twenty years, if the Lord wills."

To add weight to his words, Rev. Mc-Gready made allidavit before J.D. Brookes, Notary Poblic.

Dr. Williams Pink Pills for Pale People exert a powerful influence in restering wasted urree power and in putifying and eartiching the blood. Drugglist consider them the most effective remedy which they dispense.
